

iD Square Loose-Lay

LUXURY VINYL TILES

Create LAB

 **Tarkett**

Create your space.

iD Square Loose-Lay Create LAB invites you to experiment with creative flooring for inspirational interiors.

With a versatile collection that enables the creation of expressive and functional workspaces, our design approach focuses on four key pillars: inspiration, flow, circularity and wellbeing. This reinforces our ongoing commitment to Tarkett Human-Conscious Design®: to create flooring that is good for people and for the planet.

Create for Inspiration

Inspired by wood, stone and textile, endless combinations of colour, pattern and modular compositions unleash opportunities for creative expression and experimentation. Curate mix-and-match interiors, playful configurations and cohesive colour combinations. Our extensive collection of classic and contemporary designs brings warmth and tactility to harmonious, characterful workplaces.

An exploration into colour, form and pattern, iD Square Loose-Lay's range of elevated prints offers limitless possibilities. Thanks to a coordinating palette of accent colours, mid-tones and neutrals, it's easy to experiment with colour blocking, multiple patterns and subtle zoning; while our new Tektanium® surface treatment offers long-lasting aesthetic and functional benefits. Whether vibrant and playful or calm and understated, our tiles ensure the effortless creation of visually stimulating interiors.

Create for Flow

Combine different patterns and tones to deliver rhythm and fluidity to dynamic, flexible workspaces. Compose functional zones for collaboration and concentration, create colourful pathways and add personality to transitional areas. Carve out space for textural surprise when seamlessly combining iD Square Loose-Lay Classic, Stone and Textile tiles with DESSO carpet, resulting in tactile, sensorial working environments.

Create for Circularity

At Tarkett, our approach to circularity focuses on three key areas: design, materials and circular journey. For us, the beauty of circularity is about the beauty of the reused materials that go into our products. Made in France using cutting-edge material innovation, our loose-lay adhesive-free tiles are installed and disassembled with ease. Always working to reduce our impact, recyclable content and our ReStart® take-back initiative minimise waste and limit the use of virgin raw materials. We are proud of our Europe-based recycling system, and committed to creating a circular future, with today's actions laying the groundwork for tomorrow.

Our pioneering take-back and recycling programme ReStart® drives our circular journey, diverting both carpet and luxury vinyl tile flooring material from landfill to significantly reduce our environmental impact. Made in France at our factory powered by green energy, iD Square Loose-Lay is partly made from recycled content and is recyclable through ReStart®, with offcuts and post-use tiles collected, disassembled and remade into new Tarkett floors at our recycling centre in Europe.

Create for Wellbeing

Offering the highest performance on the market, our Class A in-room acoustic insulation dampens noise levels, enhancing a feeling of calm. By reducing impact sound transmission between floors, we also improve workplace concentration, productivity and relaxation – all of which boosts mental and physical wellness and contributes to a healthier work environment.

Our Circular Journey

RECYCLING

Our pioneering take-back and recycling programme, ReStart®, closing the loop and driving a circular journey.

From installation scrap to post-use waste, ReStart® minimises waste and reduces the need for virgin raw materials.

Recycled at our in-house recycling centre in Luxembourg.

DURABLE & LOW-MAINTENANCE

TEKTANIUM® surface treatment ensures scratch resistance, maintaining a pristine appearance with easy stain removal.

Featuring a 0.8 mm wear layer for added durability, ideal for high-traffic areas.

Simplified maintenance allows for quick replacement of individual tiles and planks.

ACOUSTIC COMFORT & WELLBEING

The highest in-room acoustic Class A insulation. Impact noise reduction of 17 dB.

Optimal indoor air quality
Ultra-low VOC emissions, less than 10 µg/m³.

*We advise keeping a height difference of maximum 2.5 mm between carpet tiles and LVT, to avoid strips or levelling.

MATERIALS & MANUFACTURING

- 98% of materials assessed by a third party.
- No heavy metals, no biocides and no phthalates for more responsible PVC.
- Responsible production with 0% production waste to landfill.
- No carbon offsetting.
- 100% recirculated industrial water in a closed-loop system.
- Contains 20% recycled content.

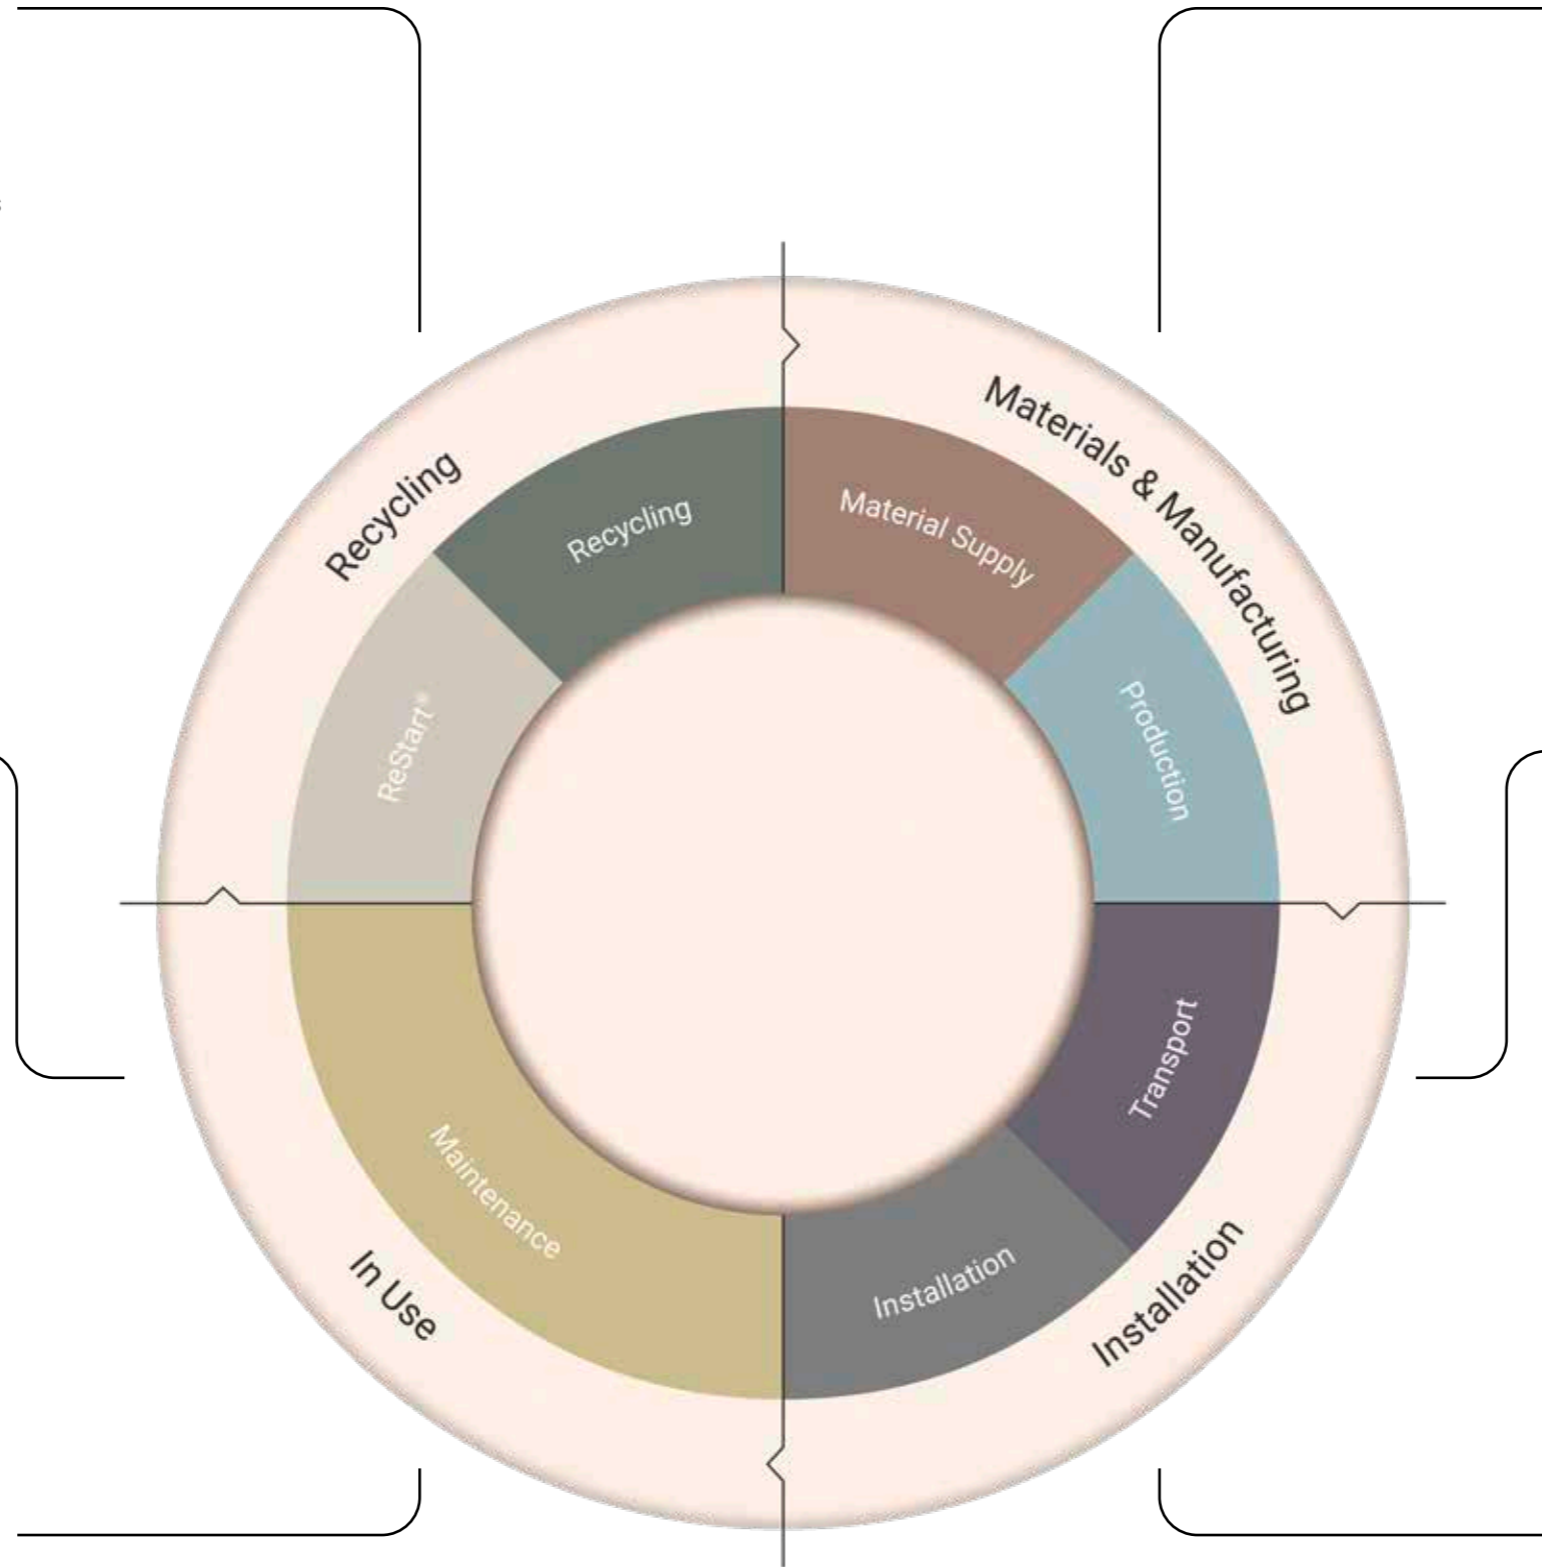

TRANSPORT

Made in France for shorter transportation distances to our European customers for reduced carbon footprint.

LOOSE-LAY INSTALLATION

After use, our tiles can be cleanly removed for recycling.

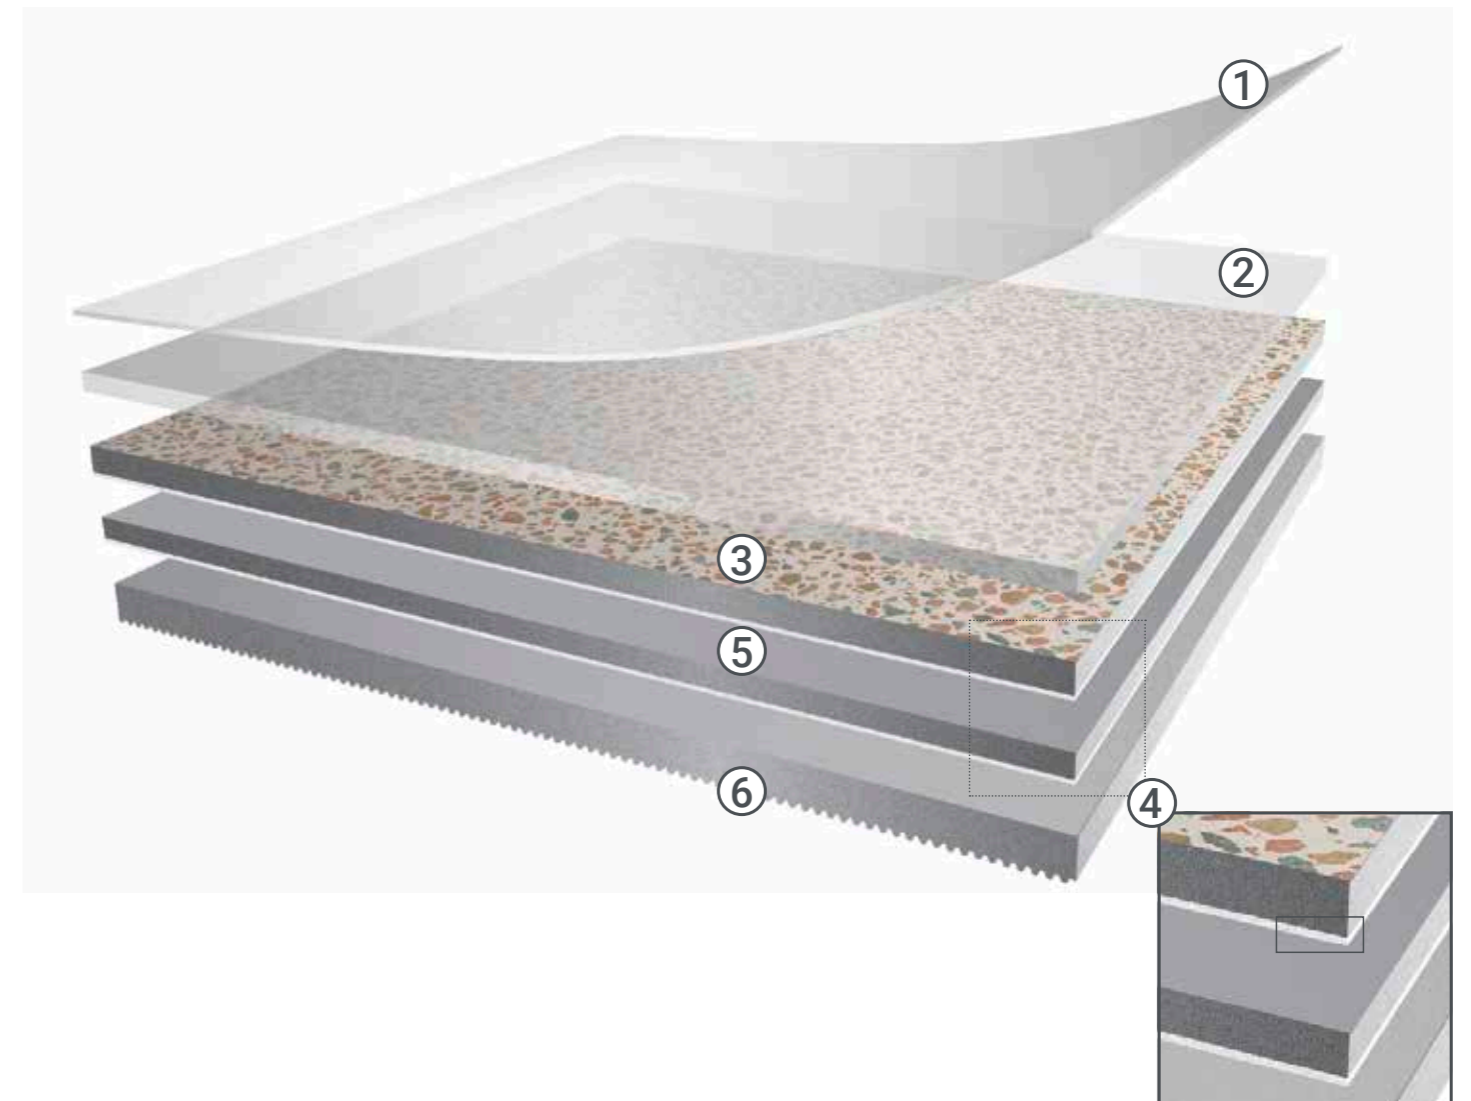

Our Tarkett Academy provides learning programmes to support our customers in applying the correct installation methods.

ID SQUARE
TERRAZZO GRANDE
SWEET MULTICO
280036016

Designed For Durability & Acoustics

1. Tektanium® surface treatment provides exceptional scratch, scuff and stain resistance.
2. Wear layer adds durability in high-traffic areas with a thickness of 0.8 mm.
3. Printed compact layer features authentic designs.
4. Glass fiber and PET film ensure exceptional dimensional stability.
5. Calendered underlayer minimises indentation and enhances acoustics.
6. Acoustic foam further reduces noise impact on the floor below.
7. Embossed foam backing prevents lateral movement, with arrows indicating the installation direction.

iD Square Loose-Lay Collection

Grouped into three coordinating categories, our new collection showcases Classic's timeless wood and stone, Stone's contemporary mineral mix and Textile's soft, tactile qualities. Our tiles are available in 12 printed designs with 47 harmonious colours and formats. Digital Printing (DP) offers premium realistic effects, no repeat patterns, and hyper-realistic décors that closely mimic natural materials. Thus iD Square Loose-Lay DP features more pronounced details, richer movements, and enhanced characteristics, like knots in Brook oak, and effects in Brecciastone.

Loose-Lay Installation

Our adhesive-free tiles are easy to install, with minimal preparation, and just as easy to remove, offering quick access to the technical subfloor. Benefitting from simple, low-cost maintenance and repair, the design allows for the quick change of single tiles and planks, which are suitable for use on raised floors.

Carpet Match

Crafted by our in-house design studio, iD Square Loose-Lay provides seamless integration with DESSO carpet. Thanks to the tiles' similar height – any slight difference will be less than 2.5 mm* – our products work together without the need for transition strips. Enabling effortless office design, use colour and pattern to denote zones, define walkways and enhance transitional areas for multifunctional work environments.

*We advise keeping a height difference of maximum 2.5 mm between carpet tiles and LVT, to avoid strips or levelling.
